

FDA/EC COMPLIANCE STATEMENT

This is to certify that Polypropylene, Polyester and Nylon materials and the associated filter components used in producing bag filters under the Nordic Filtration brand fully comply to the Food & Drug Administration of the United States of America

(FDA) requirements outlined in the code of Federal Regulations, Title 21 Part 177 “Substances for Use as Basic Components of Single and Repeated Use of Food Contact Surfaces”, and to the EU rules 1935/2004 and 2002/72/EC for food contact.

This is to further certify that all materials are controlled and traceable through production lot numbering to assure that these FDA and EC requirements are fully satisfied.

Please contact me if you have any questions.
