

CERTIFICATE OF CONFORMITY: Vana depth

Vana Depth filters comply with the following regulations:

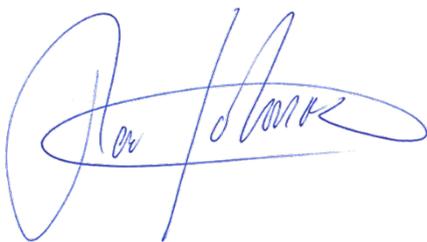

FDA 21 CFR 177.1520

Test requested	Conclusion
FDA 21 CFR 177.1520- Soluble fraction	Pass
FDA 21 CFR 177.1520- Extractable fraction	Pass
FDA 21 CFR 177.1520- Density at 23°C	Pass
FDA 21 CFR 177.1520- Melting point	Pass

Conditions of use:

Vana depth filters have a broad range of chemical compliance. Suitability should be checked before each new application is installed.

Vana depth filters filters are suitable for operation temperatures up to 80°C at 1 bar pressure. At higher pressure, the temperature tolerance will be lowered.
