APRO SST 1000

APRO SST 250

Reverse Osmosis SST-Series

www.nordicfiltration.com

Technical Data

- 150-2000 l/h (depending on model)
- Up to 90% Salt reduction
- 50%-85% System recovery
- 2000 ppm, Max inlet TDS

APRO SST 300

APRO SST 500

The APRO-SST series from AQUAPHOR are compact Home and Commercial reverse osmosis units, that allow a consistent production of high-quality water with low energy consumption and reduced operational cost. Equipped with the highest quality components, APRO-SST series features robust space-saving design, easy maintenance, and quiet operation.

System equipment

- Various product Sizes 150 - 2000 l/h
- Stainless steel frame and equipment panel
- Multi stage stainless steel Grundfos pump
- Low pressure membranes
- Stainless steel needle regulation valve
- Fully equipped electric board with pump protection
- MP controller with TDS/Flow/Pressure monitoring
- Stainless steel panel mounted w/ Glycerin-filled gauges
- BB (Jumbo) pre-filter

Optional features

- Antiscalant dosing pumps with level switch
- Supply pumps and storage vessels
- Antiscalant

Benefits

- Improved water quality
- Extended membrane life
- Low maintenance operation
- Space saving design
- Quiet operation
- Reduced operational costs
