Reverse Osmosis HS - High Salinity

www.nordicfiltration.com

The APRO-HS systems allow a consistent production of high-quality water out of high salinity water sources. Equipped with reliable anti-corrosion components, APRO-HS series features robust space-saving design, long-lasting operation, and easy maintenance.

This product line was initially designed for Baltic sea water purification and is popular in this region for seaside business needs.

Technical Data

- 500-2000 l/h (depending on model)
- Up to 98,5% Salt reduction
- 50%-95% System recovery
- 10.000 ppm, Max inlet TDS

Benefits

- Improved water quality
- Extended membrane life
- Low maintenance operation
- Space saving design
- Quiet operation
- Reduced operational costs

Technical Features

Model	APRO HS 500	APRO HS 1000	APRO HS 1500	APRO HS 2000
Permeate flow, l/h	500	1000	1500	2000
Membrane quantity	2	4	6	8
Max inlet TDS, ppm	10.000	10.000	10.000	10.000
Clean water, l/h	500	1000	1500	2000
Power Supply	380V, 50Hz			
Weight	110	199	211	254
Salt rejection	98,5%			
System recovery	30%-90%			
Flush valve	yes			
Dimensions, mm	1150 x 750 x 1390	1150 x 750 x 1390	2170 x 800 x 1790	2170 x 800 x 1790
Connections (inlet, outlet, concentrate)	1" / 3/4" / 3/4" NPT (PB)			

Nordic Filtration

At www.nordicfiltration.com you will find a wide selection of filtration products ready for you to order.

Nordic Filtration offers a wide selection of filtration products for water treatment. We have stock in Denmark from where we distribute all of our products to Scandinavia and the the rest of the world.

You can buy our products on local websites or by contacting us by phone or e-mail. Information about our products as well as brochures and manuals can be found on our website (www.nordicfiltration.com).

We can adapt all of our filtration products to your needs, and we offer visits from our consultants in order to find the right solution for you.
