

Gross Filterhousing

Housing for cold water filtration, reinforced with silicate glass fibers for more durability.

Detachable Brass double-nipples reduces the risk of damage during installation and changing pressures and also increases useability.

Available in two sizes - accomodates different demands to flowrate.

- 10" Jumbo-size has an flow of up to 80 l/min.

- 20" Jumbo-size has an flow of 80 l/min and up to 150 l/min, depending on filter and pressure used.

Benefits

- Complete - wrench, nipples and wall bracket all in box.

Advantages

- Brass fittings - Detachable brass double-nipples makes the housing more multipurposed for male and female connection.

Technical Features

Gross Filterhousing

Head	PP with brass nipples
Sump	PP with Glass fiber reinforcem.
O-ring	EPDM
Working pressure	max. 6,3 bar
Working temperature	0°C + 38°C min./max.
Connection	1"
